## EXPERIENCE

### Front-End Engineer

Oct 2022 - Present

- RasMal
- Remote
- Refactored three-year-old application in React 18 and Redux with full user experience while improving flow and adhering to clean code principles.
- Optimized routing by implementing protected and permissions routes; also used lazy loading to reduce bundle size by 60%.
- Developed PDF-generating feature with full functionalities, including different variables for filling and formatting the document.

### Senior Front-End Developer

Jul 2022 - Nov 2022

- Taqneen
- Nasr City - Cairo
- Collaborated with backend and devops engineers for the release of new features and API endpoints to make available to frontend clients.
- Worked with JSON objects, Typescript and Redux-Forms intensively to create interactive web pages
- Participated in daily team meetings and scrum meetings

### Junior Front-End Developer

Mar 2022 - Jul 2022

- Uniparticle
- Maadi - Cairo
- Worked with senior developers to rebuild Aman Microfinance's old wordpress website in TypeScript, React, Redux, and SCSS.
- Worked in an agile environment with weekly meetings and sprint planning.
- Participated in peer code reviews as appropriate for the task at hand and reviewed others' code when requested.

### Freelance Front-End Developer

Apr 2019 - Mar 2022

- Developed various templates, landing pages, and new features based on functional specifications.
- Consistently met deadlines and requirements for all production work orders
- Increased traffic and enhanced page ranking by improving website structure and search engine optimization (SEO) and search engine marketing (SEM) for local improvements.
